

QRD WIPEES

QUICK RELEASE DISPENSER

**QRD safe wet
and dry system:
a winning
combination, which
offers versatility,
improves hygiene
and reduces waste.**

This system allows the choice between using the wipes as a dry wipe or simply add your own solution to the Quick Release Dispenser (QRD) bag and use as a detergent or disinfectant wipe.

Designed using 100% polypropylene with a custom manufacturing process that provides a high strength non-woven in cross and machine direction, QRD wipes have amazing absorbency for spills and dirt pick up on surfaces whilst allowing optimum delivery of the detergent or disinfectant formula.

QRD PACKAGING

- Protects the dry roll from physical contamination and moisture.
- Improving hygiene through reduced size aperture for access to wipes.
- Controlled dispense via patented QRD twist fit nozzles controlling costs.
- Reduced material providing a low carbon footprint.
- Compact pack size enabling more to fit onto a pallet providing cost savings for storage, warehousing and distribution.
- Reduces costs for packaging waste disposal once empty.
- Meets HACCP colour coding requirements where needed easily identified by appropriate colour QRD nozzle.
- Colour coding also assists with allergen control.

Features & BENEFITS

Highly absorbent non-woven; this has been achieved by a new four layer technology

The result: a 20% increase in absorbency.

The non-woven is strong to withstand the harshest of cleaning tasks.

Shelf life and certifications

The shelf life is of 2 years from point of manufacture. If the QRD bag is filled with high alcohol solutions is important to stock the bags in ambient temperatures and that the lid or pack is securely closed.

The QRD wipes non woven are certified for use in food contact applications and conform with EU Regulation 10/2011 relating to plastics materials and articles intended to come into contact with foodstuffs.

Composition

Wipes material is of 100% polypropylene

Formats

3L QRD with blue nozzle containing dry roll 26 g/m² white wipes 25 x 31cm 150 sheets. 4 x 3L QRD per carton.

11L QRD with blue nozzle containing dry roll 33 g/m² white wipes 20 x 23 cm 800 sheets. 3 x 11L QRD per carton.

Instructions FOR USE

The packaging does not need to be filled completely.

We recommend putting between 2.2-2.5L of the disinfectant depending on the desired wetness level for the application.

The wipes can be impregnate with several formulations:

- > Disinfectants for food industries
- > Surface sanitisers
- > Hand sanitisers
- > Alcohol solutions (70-90% IPA or ethanol)
- > Detergent solutions

Release QRD nozzle anti-clockwise and remove.

Optional: If the wipes want to be used as wet wipes, fill the QRD bag with the desired solution (Aprox. 2.2-2.5L)

Insert thumb and forefinger and pull out the first wipe from centre of roll.

Push wipe through reverse of QRD nozzle.

Replace QRD nozzle turning clockwise to seal.
